MERCHANTS DISCUSS ORNAMENTAL LIGHTS

CONFERENCE TONIGHT AT CITY
HALL WITH REPRESENTA-
TIVES OF I. N. U.

SMALLER TOWNS OUTDO DIXON

Many Local Business Men Favor New
Lighting System and Mean to Get
It—West Brooklyn and Franklin
Grove Have Lights.

Another effort to start a move-
ment for boulevard lights in the bus-
iness section of the city has been start-
ed and this evening a delegation of
merchants and officials of the Illi-
nois Northern Utilities company will
meet with the commissioners on the
project.

Many cities and villages in the vi-
cinity have contracted for ornamen-
tal street lights and Franklin Grove
is the latest addition to the ranks of
well lighted municipalities, for Gen-
eral Contract Agent Chas. B. Yonts
of the I. N. U. announced today that
contracts had been closed with the
village board of Franklin Grove for
the installation and operation of 24
ornamental lights in that place.

Many Merchants Favor.

It is understood that many of the
local merchants are in favor of or-
namental lights. Some time ago Geo.
B. Downing, grocer, took the matter
up with a few other business men,
and with the officials of the I. N. U.
company. It is understood the light-
ing company has made an excellent
proposition to the local men, and
there is a general feeling in commer-
cial circles that Dixon should not al-
low Franklin Grove, Forreston and
many other smaller towns to get
ahead of this city.

West Brooklyn Lights.

Mr. Yonts has also announced that
contracts for the street lighting of
West Brooklyn were closed and that
a modern system of lighting will
be installed there.

FULKERT BOLENIUS DIED SUNDAY MORN

AGED AND RESPECTED RESI-
DENT OF LEE COUNTY HAS
CROSSED GREAT DIVIDE.

Fulkert Bolenius, who for over
40 years has been a resident of Lee
county, and all of whose near rela-
tives have preceded him in death,
died at the home of Wm. F. Janssen
in South Dixon at 9 a. m. Sunday,
death resulting from old age. The
funeral was held this afternoon at 1
o'clock at the home and at 2 o'clock
at the Nelson school house, Rev.
Drexel officiating. Burial was in the
Nelson cemetery, where the wife of
the deceased is interred.

Mr. Bolenius was born in Ger-
many Jan. 2, 1829. He came to this
country about 40 years ago and his
life since has been spent in this vi-
cinity, where he has seen all of his
near relatives pass away. He was an
industrious and frugal man and had
many friends who will mourn his de-
mise.

DE PAUL PLAYERS ARE POOR SPORTS

SECRETARY BAILEY SAYS HE
NEVER SAW A TEAM GET SUCH
UNGENTLEMANLY TREATMENT

Secretary E. T. Bailey of the Y.
M. C. A., who refereed the football
game between Dixon college and De-
Paul Saturday, states that in his sev-
en years experience of refereeing and
umpiring sporting events, he never
saw a ball team receive such ungen-
tlemanly treatment as the Dixon
players did at DePaul. The referee, a
DePaul man, absolutely refused to
penalize the DePaul players and fre-
quently reversed decisions of Mr.
Bailey.

ARHEN'S MEN CLASS ENJOYED ADDRESS

ATTY. WINGERT ENTERTAINED
CLASS WITH A "LEGAL
RAMBLE."

Friday evening, together with
friends numbering 75 men, the mem-
bers of Ahrens' men's class of the M.
E. Sunday school enjoyed an address
delivered by Atty. E. E. Wingert.
The subject title was "A Legal Ram-
ble" and consisted of a clear presen-
tation of several essential legal
phases that to the layman are gener-
ally enveloped in mysterious haze of
technicality and was interspersed
with numerous humorous anecdotes
and recital of incidents experienced
during legal practice, stories that
provoked many outbursts of mirth
and applause. Preceding the address
of the evening Mr. Drake of Dixon
college responded to encore with a
solo, "Till the Sands of the Desert
Grow Cold, and later on the program
musical numbers were greatly en-
joyed, rendered by Messrs. Ransom,
LaDue and Drake, accompanied with
guitar by Orville Oestewig, all stu-
dents at Dixon college and members
of Mr. Ahrens' class.

A motion by Harry Kennedy for a
rising vote of appreciation of the ex-
cellence of the program furnished
met with unanimous and hearty re-
sponse and another number, wittily
announced by Class Secretary Reed,
proved that a responsive chord had
been struck as he led the way to the
basement where tables were found
with appetizing lunches and hot cof-
fee, this portion of the program be-
ing accompanied also with music by
the quartet, guitar and vocal, Oestewig,
Drake, LaDue and Ransom, in-
terspersed occasionally with a few
of the college football team favorite
yells volunteered by the team.

The only dark spot in the even-
ing's pleasure threatened from a tel-
egram stowed away in H. A. Ahrens'
pocket, received late in the after-
noon from Col. Ogden, dated Omaha,
Neb., conveying regret at his en-
forced absence and greetings to the
assemblage, the reading of this doc-
ument, however, was averted when
the genial Colonel's form loomed in
the doorway and his welcome pres-
ence was explained in the statement
that special business in the west had
been expeditiously cared for and by
chartering a special car he was en-
abled to reach Dixon, as his presence
indicated.

At 9:30 adjournment was declar-
ed with assurances from many guests
that future similar occasions would
surely find them in attendance, an-
other page in history of entertaining
and jolly social affairs of the Ahrens
class was filled.

the edge of the tub, fell backward in
to the boiling water. The distracted
mother rescued her child as soon as
possible, but it was badly scalded.
The baby lived for five weeks before
it finally succumbed.

RODERICK WHITE'S FAMOUS VIOLIN

VIOLINIST AT BAPTIST CHURCH
TUESDAY NIGHT PLAYS ON
ABBOTT-STRAD.

It will be of interest to those who
hear Roderick White, the violinist,
Tuesday night at the Baptist church
to know something about the treas-
ured instrument upon which he will
play.

It is one of the far famed violins
made in Cremona about 1723 by the
greatest of violin makers, Antonio
Stradivari. It eventually became the
favorite in the collection of the late
Duke of Cambridge, who willed it at
his death to his friend, Moritz Haus-
man of Hanover.

Hausman was a great teacher of
harmony and one of his best loved
pupils was Juan Joseph Bott whose
father was a prominent court musi-
cian. Juan Joseph was born in Hesse-
Cassel on March 9, 1826, and when
Hausman died in 1876, Bott bought
the Stradivarius, the great ambition
of his life.

In 1884 the late Theodore Thomas
persuaded Bott to move to New York
and in 1894, after a protracted ill-
ness, Bott thinking he would never
again use the Stradivarius, decided
to sell it.

Signor Nicolini and his wife, Ade-
lina Patti, were recommended to him
as purchasers, and offered \$4,500,
but were refused, and a few days fol-
lowing their offer, in the absence of
Prof. Bott, a stranger called and said
he would await his return.

On the return of Prof. Bott, both
the stranger and violin had disap-
peared. No trace of the violin was
found and after several months of
sorrowing Prof. Bott died of a broken
heart.

After seven years, evidence was
found that the violin dealer who had
recommended Signor Nicolini had
stolen the violin. He was arrested,
convicted and sentenced, but finally
upon producing the long lost violin,
was exonerated.

It is now owned by Roderick
White and its value is represented
by five figures.

P. B. O. E. BAZAR STARTS THIS EVENING

ELKS WILL BE THE MAIN SOCIAL
ATTRACTION DURING
THIS WEEK.

The Elks' annual fair, which in for-
mer years has been one of the most
successful of the winter events, will
commence at Rosbrook hall this ev-
ening, and the committee in charge
anticipates a large attendance each
evening, as many special features,
all of which will please, have been
arranged for. The committee endeav-
ored to secure some prominent speak-
er to open the fair tonight, but all
the available men had been engaged
and therefore that feature had to be
abandoned.

However, there will be plenty of
attractions. A live-duck pond, much
poultry for the Thanksgiving din-
ner, and other valuable prizes will
be given away and the dance floor is
in excellent condition. Slothower's or-
chestra will play this evening and to-
morrow night, the Marquette orches-
tra commencing on Wednesday eve-
ning and finishing the fair.

COLLEGE TEAM LOST TO DE PAUL SATURDAY

DEPAUL UNIVERSITY ADMINIS-
TERED SECOND DEFEAT OF
THE SEASON.

CHICAGO VETS HERE THURSDAY

Thanksgiving Game Will Be Big One
of the Year—Dixon Put Up Good
Game Saturday and Made Plucky
Fight.

Dixon College football team, the
best the local institution has had for
years, met its second defeat of the
season at DePaul Saturday afternoon.
However, the Dixon boys put up a
brilliant game against a heavier
team and were frequently cheered
for their game work. The final count
of the game was DePaul 24 Dixon
0.

The first period of the game was
uninteresting. Both teams gained on
forward passes, but their work was
marred by frequent penalties. In the
second period DePaul gained the ball
on their 30-yard line and from there
carried it over for a counter, Bryne
making a greater part of the gains
with plunges off tackle. Fingal got
away shortly afterward on a forward
pass, but was tackled 30 yards from
the goal. In the third period DePaul
exceeded the speed limit by pushing
the ball down the field at a terrific
pace, but holding in the line lost
them their chance to score. DePaul
made their last score in the final pe-
riod, with a triple pass near the mid-
dle of the field. Buckley of DePaul
gathering the oval and kicking 40
yards for the final touchdown.

Chicago Vets Thursday.
The college team will close its
season Thursday afternoon when the
fast Chicago Veterinary college team
will be here for the big game of the

another defeat would make the sea-
son show a loss. A big crowd will at-
tend and cheer the players to victo-
ry.

HIGH WATER PRESSURE WROUGHT DAMAGE

FIRE PRESSURE OVERFLOWED
SINK AT CANDY KITCHEN, DAM-
AGING NEW RESTAURANT

The increased water pressure,
which was given after the alarm of
fire Saturday, caused the over-
flow of a sink at Cleodon's Athenian
Candy Kitchen, and resulted in some
damage to the new Saratoga restaur-
ant in the basement of the Loftus
& O'Connell building. Mr. Cleodon
had left the water running last night
and the increased pressure caused
a flow of water greater than the ca-
pacity of the outlet. As a result the
sink overflowed and the water ran
into the basement.

is making daily 3,000 barrels of ce-

A delightful evening was spent by all present and one of the features of the evening which made merriment for all was the hiding of a beautiful solid silver jelly spoon which the class members purchased as a gift for Mrs. Lehman, and to which was tied many strings, and Mrs. Lehman had to follow the strings and untie the tangles, but finally succeeded in locating the spoon. Other games and music rounded out the evening's enjoyment and a dainty luncheon was served. The dining table was beautifully decorated, the centerpiece formed of yellow chrysanthemums and ferns. Altogether it proved a most delightful evening.

ASK WILSON JOB VIEWS

Democrats Seek Information on Patronage Question.

Cable for Quick Reply—Members of Congress Worried by the Many Demands on Them.

Washington, Nov. 25.—Democratic senators and representatives, who are being inundated with appeals from job hunters, joined in a cablegram to President-elect Wilson urging an early announcement of the patronage policy he expects to pursue.

It was suggested in this message that Governor Wilson give immediate attention to this matter and communicate his views in order that the senators and representatives may reply to the job hunters which will not mislead or raise false hopes.

President Cleveland's patronage policy was to allow representatives to select postmasters except in the home states of senators and to allow senators to pick the marshals and collectors, while judges and district attorneys were selected by the president himself.

If this plan is to be followed the Democratic leaders would like to know it. They also would like to know whether Republican incumbents appointed for four year terms are to be removed or allowed to serve out their term.

It is estimated that 100,000 letters from applicants for jobs under the Democratic regime have been received up to date at the capitol and they still are coming in at the rate of 10,000 a day.

HISTORY OF THE DAY

Thanksgiving Feast Is Peculiar to United States.

THANKSGIVING day, coming with the regularity of a movable feast, is peculiar to the United States. Other countries now and again, as in Great Britain upon the occasion of the jubilee of the late queen, have a day of thanksgiving, but here, by an unwritten law, almost by the general will of the people, and certainly by the power of custom, Thanksgiving day comes each year as regularly as Christmas.

Although Thanksgiving day must be proclaimed by the president or governor, and usually by both, and the time of year and the date itself are left to their judgment, so strong is the custom that the calendars for next year have denoted the day far ahead of any proclamation. On the last Thursday in November the figures are printed in red. The banks know it will be that day, although there is nothing but precedent to establish it; business men know it will be a day of thanksgiving and never stop to reason why. The school-boy, the football enthusiast, the farmer, the poultryer, all know Thanksgiving day is the last Thursday in November.

As a generally observed national holiday Thanksgiving day is only a little over 40 years old, yet its history is in a measure of much greater antiquity. Like many another custom, we owe this to those stern Puritans who "separated" and came to Massachusetts bay to make a lasting impression upon the social life of the New World. The history of the first Thanksgiving day in the Massachusetts plantation has been variously given. In 1621, it is said, a day of thanksgiving was observed in acknowledgment of the Pilgrims' first harvest in America.

Those were trying days for the colonists. The winter was one of great severity and scarcity. The people, we are quaintly told, "were necessitated to live upon clams and mussels and ground nuts and acorns, and these got with much difficulty in the winter time. People were very much tired and discouraged, especially with the last batch of bread in the oven."

Winthrop had early in the preceding July sent the ship *Lion* to England for a cargo of provisions, but after an interval of many months the ship was not forthcoming. On the 5th of February, 1621, while the governor was giving "the last handful of meal in the barrel unto a poor man distressed by a wolf at the door, at that instant they espied a ship arrived at the harbor's mouth, laden with provisions for them all."

A general fast day had been previously appointed, but the arrival of the *Lion*, bearing their sorely needed relief, changed their mourning into joy, and, as Winthrop records in his journal, a day of thanksgiving was held in "all the plantations."

Franklin has left an interesting account of the origin of Thanksgiving in America, which is not without his humorous touch, and which, like most of his similar writings, is perhaps not as veracious as it might have been. "There is a tradition," he wrote, "that in the plantations of New England the first settlers met with many difficulties and hardships, as is generally the case when a civilized people attempt establishing themselves in a wilderness country."

"Being piously disposed, they sought relief from heaven by laying their wants and distresses before the Lord in frequent set days of fasting and prayer. Constant meditation and discourse on these subjects kept their minds gloomy and discontented; and, like the children of Israel, there were many disposed to return to that Egypt which persecution had induced them to abandon."

"At length, when it was proposed in the assembly to proclaim another fast, a farmer of plain sense rose and remarked that the inconveniences they suffered, and concerning which they had so often wearied heaven with their complaints, were not so great as they might have expected, and were diminishing every day as the colony strengthened; that the earth began to reward their labor and to furnish liberally for their subsistence; that the seas and rivers were found full of fish, the air sweet, the climate healthy and, above all, that they were there in the full enjoyment of liberty, civil and religious; he therefore thought that reflecting and conversing on these subjects would be more comfortable, as tending more to make them contented with their situation and that it would be more becoming the gratitude they owed the Divine Being if, instead of fast, they should proclaim a thanksgiving."

"His advice was taken, and from that day to this they have in every year observed circumstances of felicity sufficient to furnish employment for a thanksgiving day, which is therefore constantly ordered and religiously observed."

As we now have it, the festival dates from 1864, when President Lincoln issued a proclamation for setting apart the last Thursday in November of that year as a day of national thanksgiving.

In his proclamation Lincoln said: "It has pleased Almighty God to prolong our national life another year, defending us with his guardian care against unfriendly designs from abroad and vouchsafing to us in his mercy many and signal victories over the enemy who is in our own household."

A Grace for Today

By Wilbur D. Nesbit

Show us the way to see the good
That comes into our lives each day,
The blessings, dimly understood,
That give us cheer along the way.
Give us content, with gold and gear—
Though much or little we possess—
Let us be glad for what is here
On this, our day of thankfulness.

But broaden, too, the soul and mind
So that our thanks will not be found
By custom's rule and rote confined
Within this one day's narrow bound.
Let us be glad for early rain
That bids the flowers wake and creep,
Let us be glad for snowy plain
That holds them in their winter sleep.

Give us the heart to understand
The graciousness of spreading trees;
The changing seasons, wisely planned,
The storm and sunshine—all of these.
For all the brightness of the dawn,
And cheerfulness of noon and night,
And all that joy is builded on
Give us the grace to see aright.

Let us remember each kind word
By weight of goodly feeling blessed—
Each gentle thing we've said or heard—
And blot from memory the rest.
Give us the grace to see and know
The benefits along the way—
The many things that help us so.
Let us be thankful every day.

THANKSGIVING NIGHT

By WILBUR D. NESBIT.

Last night I got to thinking, when I couldn't go to sleep,

Of the way Thanksgiving served me in the days when joy was cheap—

Of how we'd have a turkey, and of how I'd beg a taste

Whenever they would open up the oven door to "baste"

The bulging breast, and how then from the oven came a drift

Of tantalizing odor, such as only boys have sniffed.

I got to thinking of it—for I couldn't go to sleep—

Of mince pies in the pantry, where I'd sidle in and peep,

And jelly and plum butter, and the peach preserves and cake—

And then I got to thinking of how fine 'twould be to take

A trip back to the old days, when the dancing candle light

Played pranks with all the shadows on the wall, Thanksgiving night.

The boys I used to play with! I could shut my eyes and see

The whole troop of them waiting, and waving hands to me;

All freckled, ragged-trousered, with their scarfs and mittens, too;

They made a splendid picture—but the picture wasn't true;

Some Cause for Rejoicing.

In addition to the general occasion for thanksgiving, every life has its own joys and every soul its own delights. There are many who appear to be barren of rejoicing, some into whose homes calamity has come and from which have gone those whose faces were the love lights of the domestic circle. But even here may be found some cause for rejoicing, and, in any event, a reverent faith may take up the triumph of the uncrushed spirit of Job—"Though he slay me, yet will I praise him." God does not willingly afflict the children of men, and when the misfortunes come he stands ready to comfort and to protect.

For they've grown up, as I have, and strange paths have lured our feet—
The paths that find Tomorrow, and that never, never meet.

I wondered if they also were not lying half awake

And thinking of the turkey, and the jelly, and the cake;

And if they had their fancies of the lazy little street

That leads beneath the maples where the topmost branches meet—

And suddenly I heard them—heard the murmurs low and clear,

That told me they were with me, and were very, very near.

And then I curled up boylike, with my cheek upon my hand,

And shut my eyes and whispered—to myself, you understand—

Our little "Now I lay me," clear to its "My soul to keep."

Just as I used to say it when I hurried off to sleep.

And something seemed to touch me like a hand held out to bless—

And all at once my heart throbbled to a hymn of thankfulness!

Some Cause for Rejoicing.

MONARCH METAL

Weather Strips

Do not think of the Monarch Metal Weather Strips as a luxury to be put on as something extra when you can afford it. You cannot afford to be without them. Read this carefully.

Every window and door in your house—in everybody's house—that is not weather stripped, has cracks between the sash and the frame, which is usually about 1-16 inch to make the sash operate properly under all conditions. It has been proven conclusively that with a wind velocity of 15 miles per hour, this crevice will admit 145 cubic feet of air per hour for every lineal foot of length. (See Engineering Review of March, 1911.) This means nearly 3,000 cubic feet of air per hour on a double hung window of average size.

With greater velocity of wind, this amount is proportionately increased.

This means cold air, dirt, soot, it may mean frozen water pipes. It does mean drudgery of endless cleaning and dusting, which can be remedied with the

MONARCH METAL WEATHER STRIPS

These strips also stop all rattling of windows, and the windows will always be easy to operate, and there will be no sticking.

There are many kinds of weather strips, from the old rubber-edged kind, whose life lasts about a year, to the sharp-edged metal type that cuts the hands, sash cords, etc., and requires deep grooves in the sash for its installation.

The PERFECT type is the MONARCH METAL WEATHER STRIP. It consists of two sliding tubes, a tube within a tube. This ingenious interlocking shape makes the strip absolutely weather-tight.

A test made of a double-hung sash, 36x36, fitted 1-16 play all around, with the wind at a velocity of thirty-five miles an hour, allowed a leakage of 109.98 cubic feet of air per minute.

Equipped with the Monarch Metal Weather Strip, the leakage was reduced to 3.36 cubic feet of air per minute, 25 per cent more efficient than any other.

Slides, top and sill-strip are made of zinc, and the interlocking strip at the meeting rail is made of copper and bronze.

They are applied to any windows or doors, old or new, by experienced mechanics, and are guaranteed unconditionally, for wear and repair, to outlast the frames to which they are attached.

The following buildings are already equipped with the Monarch Metal Weather Strips:

The Elks' Club,
Bovey Building,
South Side High School,
W. J. McAlpine Residence.

United States and Canada Repre-
sented.

The answer to the "call of the
soil" was heard at the United States
Land Show, which opened Saturday,
Nov. 23, at the Chicago Coliseum,
bringing to a crystallization the "back
to the land" movement in America.

The exposition presented a pano-
rama of America, its fertile fields,
gardens and groves spread out like a
miniature Garden of Eden.

From the South poured in car-
loads of golden oranges and grape-
fruit; from the middle west, the

of the yellow wheat and corn fields,
and from the Pacific slope, the yield
of the vineyards and apple orchards.
The exposition was, in fact, the
embodiment of the thanksgiving spir-
it of the American people in appre-
ciation of the \$10,000,000,000 crop
which the land has brought forth
this year.

But it was not exclusively a note
of thanksgiving that was struck. The
more thoughtful visitor was im-
pressed with the necessity of con-
serving our great national wealth,
and of making the land produce even
more. This idea was emphasized by
the University of Illinois in the form
of lectures by professors of the agri-
cultural college on such topics as
soil conservation and intensive farm-
ing.

Uncle Sam's display was among
the most interesting. Good roads
models showed how town and coun-
try had been brought closer togeth-
er. An erosion model, exhibited by
the forestry department, taught a
lesson of waste caused by the denu-
dation of our forests. The weather
bureau showed what the government
is doing to keep the farmer inform-
ed as to rainfall and climatic condi-
tions in all parts of the country.

Other special exhibits deal with
farm machinery, modern giants of
iron and steel that are converting
virgin soil into arable land and ac-
complishing the work of many men
and horses.

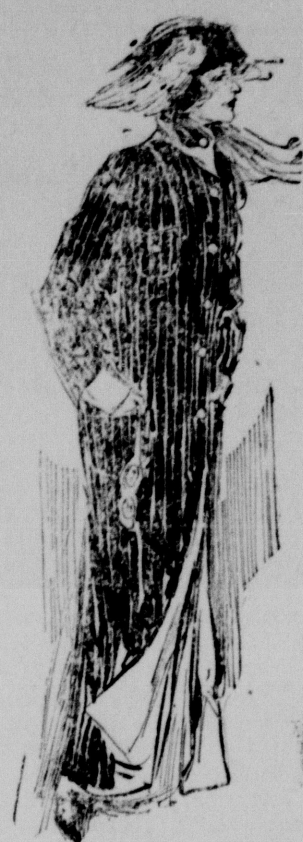

The Canadian exhibit included an
illustrated travelogue through the
great timber regions of the north-
west, showing by animated pictures
the process of felling giant trees and
converting them into building ma-
terial.

The vanishing west was repre-
sented by a colony of Blackfoot Indians
from the Glacier Park reservation,
who executed their war dances and
sun dances, and performed their na-
tive rites; a collection of mounted
wild animals from the Rocky moun-
tains, and Montana's celebrated cow
boy band.

The program provided for a num-
ber of special days, the most impor-
tant being:

Nov. 29—Children's day.
Dec. 1—Polish and Bohemian day.
Dec. 4—Scandinavian day.

It was announced that any Ger-
mans, Polish, Bohemians or Scandi-
navians arriving in the peasant cos-
tume on their respective days would
receive free admission.

Buying An Easy Chair

You don't spend much time sit-
ting about the house in easy chairs
during the summer. You want to
be out of doors.

But now the fall and winter is at
hand and as the evenings grow
longer you will spend a good deal of
time in the house.

The best time to buy an easy
chair is now not only because our
fall stock is bigger and more com-
plete but because you get the limit
of use of it from the day it arrives.

Don't put off buying an easy chair
for several months until winter is
half gone. DO IT NOW.

SIXTY DEAD IN THEATER PANIC

Children Trampled to Death When Film Explodes in Spanish Playhouse

HUNDREDS PERILED BY FLAMES

One Killed and Many Missing When Fire Sweeps Home for Idiots, Epileptics and Feeble-Minded in New York State.

Bilboa, Spain, Nov. 25.—Sixty persons, fifty of them children, were killed in the panic which followed a cry of fire in a moving picture theater here. At least fifty persons were injured, the exact number not being known because many of them were taken home by friends. One woman was among the dead.

The operator of the picture machine shouted "Fire!" when a film ignited. Immediately there was a wild stampede for the lone exit. Practically all of the dead were crushed to death under the feet of the surging mass. The police were powerless. The operator after the first belch of flame from his coop was able to extinguish the fire with his hands.

The owner, manager and all the employees of the house have been arrested.

Hundreds Periled by Fire.

New York, Nov. 25.—One man was burned to death and several others who are missing are believed to have perished in a fire that swept the Brunswick Home for Idiots, Epileptics and Feeble-Minded Children at Amityville, L. I. Eight hundred inmates of the various buildings of the institutions were led out to safety. Some of them, too enfeebled by their afflictions to walk, were taken out in thrilling rescues.

When the flames, fanned by a southeast wind, threatened the adjacent Long Island Home and Loudon hall, several hundred inmates of that institution were also led out.

Dies for Canary Bird.

The man burned to death was Fritz Mondary, thirty years old, of New York city. He was sent to the home five years ago. He escaped from the building when the fire was discovered but returned to rescue his pet canary and perished. Other inmates were seen to run back toward the flaming building and all of them have not been accounted for.

An attendant first discovered the fire, the cause of which is not known. In one of the dormitories. The staff of the home immediately set to work carrying out the helpless, fifteen of whom were found lying on their cots terror-stricken as the fire crackled in the next room. Hurry calls for assistance were sent out and firemen from six Long Island towns responded.

Walls of Building Collapse.

The walls of the Brunswick Home collapsed soon after the last inmate had been carried out. In the meantime Loudon hall and the Long Island Home were emptied of their occupants.

Hundreds of residents of Amityville used automobiles, horses and bicycles to round up the insane inmates, none of whom are believed to have escaped.

Fire Damp Kills 24 Miners.

Paris, Nov. 25.—An explosion of fire damp in a coal mine at Alais caused the death of 24 miners. That a larger loss of life did not occur is due to the fact that the explosion occurred between shifts. Only 38 men were in the mine at the time. Twenty-one bodies have been recovered.

TWO DIE IN AUTO CRASH

Great Northern Officials Killed Before James J. Hill's Home.

St. Paul, Minn., Nov. 25.—Howard James, director of purchases of the Great Northern railroad, and Samuel B. Plechner, purchasing agent of the same road, were instantly killed when the automobile in which they were driving turned turtle and crushed them to death. Mrs. Plechner, Miss Helen James and Miss Margaret Mann, who were riding in the same car with the two men, were uninjured. The accident happened directly in front of James J. Hill's country home, "North Oaks."

FORBID USE OF "TICKLERS"

Commissioners to Protect Spectators at the Inauguration.

Washington, Nov. 25.—The district commissioners will not permit the use of "ticklers" during the inauguration of President-elect Wilson. A "tickler" is a small bunch of feathers on a long stem used to tickle somebody's nose. The commissioners hold that the Democrats will be tickled enough without any such contrivances.

Young Actor Kills Self.

New York, Nov. 25.—Albert Hudson, Jr., twenty-seven years old, an actor and formerly a member of Otis Skinner's company, was found dead in his room here, with the gas pouring from two jets.

Embezzlement Case Is Dismissed. Evansville, Ind., Nov. 25.—The case of John W. Blauth, former bank cashier, charged with the embezzlement of \$45,000, was dismissed.

Dramatic Notes

THE SWEETEST GIRL IN PARIS

Harry Askin employed the services of two expert stage producers for "The Sweetest Girl in Paris," which ran for 300 performances at the LaSalle opera house in Chicago and which will appear at the Dixon opera house Monday evening, Dec. 2, with the original cast and production. The dramatic and humorous features of the book were entrusted to Frank Keenan, the noted actor and for several seasons a prominent David Belasco star, who in The Sweetest Girl in Paris has surpassed his own previous best work, i. e., the Yama-Yama dance and other numbers in the Three Twins. This very expensive and dual-producer ship is believed to have had not a little to do with the cyclonic success which the production registered in the Windy city and now that the original cast has been sent on tour an opportunity will be afforded many people to see for the first time a big metropolitan success precisely as it is presented in metropolitan centers.

A CIRCUS IN THE WINTER

Just as the circus makes all the world akin in summer time, so will the perfectly made films presenting the excellent pictures of the popular Hagenbeck Wallace show, again attract and charm the whole world in the winter season.

Animals and children are always pleasing subjects in picture, because they invariably appear and act natural in the Hagenbeck Wallace picture. The only animal that acts as if it knew it was posing for a picture is the kangaroo. All of the other animals acted natural, even the lion when having the battle with its keeper, did not allow the nearness of the camera man to cause him to forget his purpose to disobey his trainer.

The Hagenbeck Wallace circus pictures will be considered by most patrons of the picture show as the greatest feature yet shown in this popular form of entertainment. These pictures not only present the feature acts of one of the greatest shows in the world, but they exhibit the details of the handling and moving of the circus. They take us behind the scenes, as it were, and make the subject of the circus more interesting than heretofore. From the unloading of the cars to the preparation of the ground for exhibition, through the menagerie, thence to the river for bath with the elephants and back to the circus performances. All in all constitutes the truly realistic, entertaining and amusing feature picture, far above the ordinary picture attraction.

The four reels of this picture will be exhibited at the opera house on Tuesday, Nov. 26.

CHOLERA IS KILLING TURKEYS

According to Farmers and Commission Men, Strange Malady Ravaging Flocks on Illinois Poultry Farms.

Champaign, Nov. 25.—The Illinois turkey, according to farmers and commission men, is becoming the victim of a disease peculiar to the birds and known as "black cholera." Black cholera seems to have come in a mysterious way and nobody knows whence. It takes the turkey suddenly and before the bird knows it is sick, its head turns black and the bird dies quickly. So great have been the ravages of the disease that it doesn't pay any more to raise the birds. There is a farmer living near Champaign who had 130 turkeys in June. Black cholera killed them all. Consequently turkey meat is high this year. By Thanksgiving it will retail around 30 cents a pound.

Citizenship Is Questioned.

Elgin, Nov. 25.—Upon a decision to be handed down by Circuit Judge Slusser is said to depend the right to citizenship of many residents of Illinois. The decision is to be on the question, "Is an alien who came to Illinois previous to 1848, when the state constitution was adopted, legally a citizen, without being naturalized?" Application of Samuel Behn, Virgil, a farmer, for his naturalization papers raised the question. George Carlson, one of Behn's witnesses, said he had never been naturalized, having been a resident of Illinois when the constitution was adopted.

Indicted, He Cuts Throat.

Peoria, Nov. 25.—Despondent because he faced ruin as a result of an indictment charging forgery found against him by the grand jury at Huntington, W. Va., T. H. Ennis attempted to commit suicide by cutting his throat while locked up at police headquarters. He cut a gash an inch long with a safety razor in his windpipe. Physicians say he has only a slight chance for recovery. Police Sergeant Carl Schmidt found Ennis slashing his throat. Schmidt grabbed the weapon, and Ennis fought viciously with the officer.

Pioneer Pastor to Quit.

Duquoin, Nov. 25.—Rev. Marlon Teague, whom Rev. H. H. Wallace will succeed as pastor of the First Baptist church of Duquoin, is one of the pioneer Baptist ministers of "Egypt." He has been a conspicuous figure in church work in this part of the state more than fifty years. Doctor Teague was compelled to retire from active ministerial duties because of delicate health, being past sixty-six years of age.

Epidemic at Westville.

Springfield, Nov. 25.—Reported lack of the proper enforcement of a quarantine has resulted in an investigation by the state board of health at Westville. A number of cases of diphtheria and smallpox have been reported from the place, and sanitary conditions, it is said, are not good. The board's investigation is being conducted by Assistant Secretary J. C. Westervelt.

Uses Oil on Fire, Dies From Burns.

Duquoin, Nov. 25.—Mrs. Vera Bennett, the fifteen-year-old wife of John Bennett of near Hanaford, is dead as the result of burns received in making a fire with kerosene. She accidentally spilled a quantity of the kerosene on her clothing, which suddenly became ignited. The couple had been married just a month, having eloped to Missouri to wed.

Odd Fellow Fifty Years, Gets Medal.

Duquoin, Nov. 25.—Thomas Wilson of St. John, a village north of Duquoin, received a gold medal from the Illinois Grand Lodge of Odd Fellows on his anniversary of fifty years in the order. The presentation was made by members of the Duquoin lodge, of which he is a member, the address being delivered by Rev. Marlon Teague.

Man Gone, Town Mystified.

Sparta, Nov. 25.—Sparta is mystified by the disappearance of T. Grant Patterson, secretary of the Randolph county prohibition party. Mr. Patterson left his home, a few miles north of Sparta, to attend lodge here. It is believed by many that he has met with foul play, as it is supposed he had a large sum of money.

Youth Burns Three Barns.

Galesburg, Nov. 25.—Because he "liked to see the fire horses' run," Mose Burton, a sixteen-year-old negro, set fire to three valuable barns, all of which burned to the ground. The fires occurred on different Sunday mornings. Burton confessed to the police.

Killed on Way to Take New Job.

Shelbyville, Nov. 25.—Will Garrison, eighteen years old, who had just come to Findlay from Garrison, N. M., and was to have commenced work for the Chicago & Eastern Illinois railroad, fell beneath the wheels of a train he attempted to board and was killed.

Indian Lad Saved From Being Roasted by Automobileist—Many Deaths Are Reported.

Pine Ridge Indian Agency, S. D., Nov. 25.—A prairie fire which devastated a section of country 100 miles long and ten miles wide swept over the Sioux reservation and burned it self out in the breaks of the river far to the east. The town of White Owl is reported entirely destroyed and dozens of homesteaders were burned out.

Near Cut Meat, a fourteen-year-old Indian boy became surrounded in the midst of the flames and was on the point of being roasted when J. B. Brown of Valentine, Neb., wrapped a wet blanket around his body and drove his automobile through a sheet of flames to where the boy stood. Brown's companion grabbed the Indian, pulled him into the car and the automobile, without a stop, shot on through the rear wall of fire to safety.

Sustain Heavy Fire Loss.

Robinson, Ill., Nov. 25.—The lumber yards and offices of Mayor Harry Otey were partially destroyed by fire here. A high wind carried the flames across the Illinois Central track and burned the depot. Otey's loss will be fifty thousand dollars, partially covered by insurance. Railroad company loss is twenty-five hundred.

Blunder Causes Fatal Train Crash. Alexandria, La., Nov. 25.—A Southern Pacific passenger train collided with a Texas and Pacific express flyer in a grade crossing here. Two trainmen were killed and two hurt. Misunderstanding over right of way orders caused the wreck.

Turks and Balkan Allies Arrange an Armistice to Continue One Week.

Sailing of Austria's Fleet to Serb Capital Arouses Budapest—Grand Vizier Declares Strong Turkey Is Necessary to Peace.

Belgrade, Nov. 25.—The Servians occupied Ochrida in Albania without resistance. In response to an inquiry as to whether Greece could provision the Servian troops operating along the Adriatic sea, the king of Greece has replied that he will be glad in that way to show in part his immeasurable appreciation of the work of the Servian army.

London, Nov. 25.—The Express prints the following from Gustave Leon, its correspondent at Constantinople: "I am informed that a week's armistice has been concluded between Turkey and the Balkan allies. During the armistice the forces of the belligerents will remain in the positions they now occupy. Both sides have agreed to suspend bringing up reinforcements. The peace delegates held their first meeting today."

London, Nov. 25.—Fighting of a most sanguinary character continues along the Tchatalja lines, according to dispatches from Constantinople and Sofia. The Bulgarians are pressing against the defenses with great vigor but with what success is not known.

The Bulgars began a determined attack on the Turkish center last Friday, and are reported now as attempting to execute a turning movement against the Turkish left wing. In an interview at Constantinople, Kierul Pasha, the grand vizier, expressed confidence that the Turks will be able to hold the Tchatalja lines, which he regards as impregnable. Turkey Necessary to European Peace.

On the international status he made the following statement: "It should not be forgotten that Russia is behind the Balkan league, which has been in fact engineered by Russia. It will not be long before Europe feels the consequences of its present policy, for a strong Turkey is necessary for European peace."

The sultan has made representations to the king of Italy in which he begs that monarch to use his influence with the king of Servia and the king of Montenegro to adopt a more conciliatory attitude in the efforts to agree upon terms of an armistice.

British Cabinet in Conference. For one hour the British cabinet sat in earnest conference on the situation in the Balkans and its attendant dangers to the peace of Europe. The phase of the question to receive the most attention was how best to protect the interests of England in the event of a general conflict.

Winston Churchill, first lord of the admiralty, well described the British attitude when he said: "The situation is full of difficulty and needs careful handling. It is a most hopeful sign that England and Germany are working together."

Austria's Fleet to Serb Capital. Budapest, Nov. 25.—Austria's Danube flotilla, consisting of two monitors, two torpedo boats and four gunboats, have started for Belgrade. It was not announced that the ships were on a hostile mission, but the development was considered extremely ominous.

The flotilla's departure created a tremendous sensation, and the newspaper offices were deluged with telephonic inquiries as to whether war had been declared. The papers have been forbidden under the heaviest penalties to publish anything concerning military or naval movements.

ACQUIT GIRL OF MURDER

Columbus, Ohio, Nov. 25.—Cecelia Farley, the statehouse stenographer who for two weeks has been on trial for first degree murder for the shooting of Alvin E. Zollinger in a city park last May, was acquitted. Immediately following the announcement of the verdict of the jury Miss Farley said she and Jerome Quigley, who figured prominently in the case, would be married at once and would go to Los Angeles, Cal., to make their home.

INDICT EUGENE DEBS

Accused of Obstructing Justice by Grand Jury.

Fred Warren and His Attorney Arrested on Same Charge and Give Bond.

Fort Scott, Kan., Nov. 25.—On a federal indictment returned here against Eugene V. Debs, Socialist candidate for president; Fred D. Warren, editor of the Appeal to Reason, a Socialist newspaper published at Girard, Kan., and J. I. Sheppard, Warren's attorney, Warren and Sheppard were arrested here by a deputy United States marshal. The indictment charged "obstruction of justice by inducing witnesses to leave the country."

Warren and Sheppard were released on \$1,000 bond each.

The offense charged in the indictment is alleged to have been committed in connection with the case of J. A. Wayland, owner of the Appeal to Reason, City Editor Pifer of that paper and Fred Warren, charged in a federal indictment issued last May with misuse of the mails in posting obscene matter concerning the federal prison in Leavenworth, Kan.

Wayland committed suicide several weeks ago.

It is charged that J. P. McDonough of Kansas City, formerly a prisoner in the Leavenworth penitentiary, was paid \$200 to go to California and not testify in the misuse of the mails case. The indictment charging misuse of the mails resulted from the publication of an article criticizing conditions in the Leavenworth penitentiary.

Albany, N. Y., Nov. 25.—Correspondence recently between the pardon bureau of the governor's office and the officials of Sing Sing regarding the case of Albert T. Patrick, convicted of killing the Texas millionaire, William Marsh Rice, leads to the belief that Patrick will be pardoned by Governor Dix. No information was available from the governor's office, but there is reason to believe that the executive has under consideration a brief in the case.

ARMY DESTROYS TOWNS

Mexican Federals Wipe Out Twenty-Five Villages in State of Oaxaca.

Mexico City, Nov. 25.—Not fewer than twenty-five villages have been destroyed in the state of Oaxaca in the last ten days by government troops. The administration, believing the rebels in that vicinity have been cowed by the terrible warfare that has been waged, has now sanctioned orders for the retirement of the greater part of the federals from that state, leaving the final pacification to local troops.

RAIL WAGE REPORT IN

Arbitrators End Dispute Between Roads and Engineers.

Award of Board is Practically a Compromise Between Employes and Their Employers.

Washington, Nov. 25.—The big dispute between 52 railroads east of the Mississippi and their engineers, 30,000 in number, has been ended by a board of arbitration whose report has just been announced.

The award of the board, while granting substantial increases over the rates on some lines east of Chicago, was virtually a compromise decision between the engineers and their employers. In granting the award the board stipulated that all rates higher than the minima decided upon should be continued in force.

The most important of the awards are as follows: The minimum wage of \$4.25 for 100 miles or less for engineers in the passenger service, with an overtime rate of 50 cents per hour with an average speed of 20 miles an hour; a minimum of \$4.75 for engineers in through freight service per day of 100 miles or less, with overtime pro rata after ten hours; 25 cents additional per day of ten hours or less in switching service.

The railroads were represented on the board by Daniel Willard, president of the B. & O. R. R., and the engineers by P. H. Morrissey, former grand master of the Brotherhood of Railroad Trainmen. The other five members of the board were Oscar S. Straus of New York, Charles R. Van Hise of Madison, Wis.; Albert Shaw, editor of the Review of Reviews; Frederick N. Judson of St. Louis, and Otto M. Elditz, former president of the Building Trades association of New York City. Mr. Morrissey filed a dissenting report.

Public notice is hereby given that under and by virtue of a decree of the Circuit Court in and for the County of Lee and State of Illinois, made and entered on the eleventh day of October, 1912, in a certain cause therein pending wherein Adelbert G. Hughes was complainant and F. Louise Dixon was defendant, Foreclosure No. 2978, I, the undersigned Master in Chancery of said court will, on Tuesday, the 17th day of December, 1912, at the hour of two o'clock in the afternoon at the front door of the court house in the City of Dixon in said county, sell at public auction to the highest and best bidder for cash in hand, the following described premises, to-wit:

HOCKIN JAILED; BOND INCREASED

Court Says Iron Worker Deceived Everyone; Raises Surety to \$20,000.

WRITER TERMED ANARCHIST

Would Exclude Miss Mary Field of New York From Courtroom—Articles Published in Union Magazine Cause of Row at Trial

Indianapolis, Ind., Nov. 25.—Imprisonment of Herbert S. Hockin, one of the chief defendants, in default of an increased bond which was required by the court, "because he had deceived everyone," the denouncing by the district attorney of a woman writer in the courtroom as an "anarchist" and a repudiation by attorneys for the defense of some of the acts of the defendants were among sensational incidents at the "dynamite conspiracy" trial here.

Hockin was declared to have been in the employ of detectives soon after the Los Angeles Times explosion. He also was accused of having told a witness of overhearing John J. McNamara talk to President Lynch of the International Typographical union "about an explosion on the Pacific coast."

Kern Disavows Article. United States Senator John W. Kern was among the counsel for the defense who disavowed an article published by some of the defendants. The 45 defendants sat in silence while the testimony and the action of the court brought unexpected changes.

Developments of the day were: Herbert S. Hockin, secretary and treasurer of the International Association of Bridge and Structural Iron Workers, was taken to jail in default of his being able to increase his \$10,000 bond to \$20,000, ordered by the court, after a witness had said he was in the employ of a detective and had been since soon after the Los Angeles Times explosion, "and was not to be trusted day or night by anyone."

Wants Woman Excluded. Miss Mary Field of New York was branded as an "anarchist" who ought to be excluded from the courtroom for certain articles she published concerning the trial in the union magazine.

All of the officials of the union now on trial, including Frank M. Ryan, the president; J. T. Butler, Buffalo, vice-president; M. J. Young, Boston, and P. A. Cooley, New Orleans, were denounced for publishing what the court said was "an outrageous contempt of court."
